

Week :3

I have started to learn NodeJS that I have planned to work in the backend for my work.

Problem:

I have faced the problem for creating the backend for the project that I have made.

Solution:

I have decided to use Node.js in the backend of the project , so I have started to learn it from YouTube,

Till the next week I will complete the backend of the project and establish the connection between them.

Thanking for guiding me .
